To: Katherine Nutt  
Subject: Mohave Electric Coop proposal to burn trash

Dear Ms. Nutt:

I am writing to express my opposition to the Mohave Electric Coop proposal that they be allowed to burn trash in the Phoenix area to generate electricity.

This would cause toxic waste, environmental pollution, and the release of green house gases. It is also patently unfair for the Phoenix area to be burdened by this. Finally, I do not believe that this is a rational definition of a form of renewable energy, and therefore they should not get credit for this in order to meet their renewable energy requirement.

Thank you.

Sincerely,

Ivy Schwartz, MD
